3 Strategic Frameworks

The Corporate Academic Governance Framework is the highest framework at the College. It is made up of the Board of Governors (BoG) and its subordinate committees . It encompasses the Senior Management Team (SMT) and underpins all other frameworks including:

- The Academic Management Framework
- The Student Support and Engagement Framework
- The Operations Management Framework
- The Risk Management Framework

4 The Board of Governors (BoG)

The Board of Governors (BoG) is the highest decision-making body within the College. It is established by the Board of Directors to be collectively accountable for the College’s activities and takes all final decisions on matters of fundamental concern within its remit.

4.1 Purpose of the BoG

The BoG ensures the College has an effective strategic plan in place that meets legislative and regulatory requirements, institutional values, policies and procedures. It oversees the implementation of all the strategic priorities within the strategic plan and that an effective risk management system is in place to safeguard the delivery of high-quality provision and experience for students. The BoG also ensures that the College is compliant with all relevant legal and regulatory requirements and for providing equal opportunities to all its students including fair and safe access to the College’s provision. Subject to this, the BoG can delegate its powers to committees and/or to member so the Senior Management Team (SMT).

4.2 Aims & Objectives of the BoG

The BoG ensures that the College meets the following aims and objectives:

- To provide high-quality education for the benefit of the public in the United Kingdom, in particular, the provision of education whether or not leading to a degree or qualification recognised by relevant professional bodies and/or other competent bodies, such education to include the development, delivery and/or awarding of qualifications whether regulated or unregulated. The education is to be provided by different modes of delivery;
- To establish a self-critical, cohesive academic community that has a commitment to quality assurance supported by effective quality and enhancement systems;
- To support staff to engage in high-quality research;
- To actively promote and apply equality, diversity, and inclusion throughout the company, and to promote an inclusive teaching and learning environment;
- To respect the principle of academic freedom, subject to compliance with the company's equality, diversity, and inclusion policies and procedures, and subject to compliance with any legislative or regulatory requirements;
- To respect the principle of freedom of speech for all students enrolled on a course delivered by members of Oxford Business College, staff employed by the company, external speakers, subject to compliance with the company's equality, diversity, and inclusion policies and procedures
- To deliver a range of academic programmes in partnership with universities, other partners and awarding organisations (See Appendix 1).

4.3 Governance Principles

Considering the size of the organisation, the Board of Governors (BoG) endeavours to be guided by the six primary elements of higher education governance, as set out in the Council of University Chairs (CUC¹) 'The Higher Code of Governance' (See Appendix 2). The application of this code is influenced by the core values of higher education governance and the Office for Students Regulatory Framework, Notices, and Advice.

Oxford Business College also has its own additional guiding principles as follows:

- High-quality provision, with robust academic standards
- Equal opportunities for all students at the College to achieve their potential

Corporate and Academic Governance Framework (CAGF) – 20.09.23

- Quality assurance and enhancement of all learning, teaching, and assessments, as well as any academic research carried out at the College
- Oversight of all higher education and the student experience by the internal Academic Board, which reports directly and transparently to the BoG.
- Accountability of the Senior Management Team (SMT) to the Board of Governors (BoG), who are responsible for ensuring that the College is able to deliver on the College mission, KPIs, and strategic plan.

The College has applied to register as a higher education provider with the Office for Students (OfS) and submits to being in full compliance with public interest principles:

- Academic freedom: Academic staff at an English higher education provider have freedom within the law:
 - To question and test received wisdom and;
 - To put forward new ideas and controversial or unpopular opinions without placing themselves in jeopardy of losing their jobs or privileges they may have at the provider.
- Accountability: The provider operates openly, honestly, accountably, and with integrity and demonstrates the values appropriate to be recognised as an English higher education provider.
- Student engagement: The BoG ensures that all students have opportunities to engage with the governance of the provider, and that this allows for a range of perspectives to have influence.
- Academic governance: The BoG receives and tests assurance that academic governance is adequate and effective through explicit protocols with the senate/academic board (or equivalent).
- Risk management: The provider operates comprehensive corporate risk management and control arrangements (including for academic risk) to ensure the sustainability of the provider's operations, and its ability to continue to comply with all of its conditions of registration.
- Value for money: The BoG ensures that there are adequate and effective arrangements in place to provide transparency about value for money for all students and (where a provider has access to the student support system or to grant funding) for taxpayers.
- Freedom of speech: The BoG takes such steps as are reasonably practicable to ensure that freedom of speech within the law is secured within the provider.

- BoG: The size, composition, diversity, skills mix, and terms of office of the BoG are appropriate for the nature, scale, and complexity of the provider.
- Fit and proper: Members of the BoG, those with senior management responsibilities, and individuals exercising control or significant influence over the provider, are fit and proper persons

4.4 BoG Sub-committees

The BoG delegates powers to three sub-committees and internal boards and committees (see Appendix). The full terms of reference are provided below. The three sub-committees include the following:

7 The Annual Planning Cycle

The College's annual planning cycle comprises:

Strategic Development

A five-year strategic framework that sets out the priorities and goals, that the College seeks to achieve over a five-year period. When setting priorities and goals the following are taken into consideration:

- Vision, mission, and values
- Internal and external intelligence
- Self-assessment reports
- The Strategic Framework is subject to review and re-approval on an annual basis.

Strategic Implementation

The Strategic Framework will form the basis of operational departmental plans, which will be implemented during the first twelve months in order to achieve strategic priorities and goals.

An activity that was planned in the previous year will not be included unless:

- The previous activity was not undertaken and will be carried over;
- The previous activity will be enhanced;
- The previous activity was a pilot, and the activity will be rolled out across the College.

Once the Actions have been set, the Corporate Budget and the Departmental Budgets are agreed to ensure any financial resources that are required are planned to support the implementation of actions.

The College undertakes Annual Staff Appraisals and Development through which individual targets for staff are set, identifying any development needs. Individual targets are, where appropriate, linked to the Departmental Actions.

Monitoring Strategic Implementation

Implementation of the Departmental Actions is monitored through Progress Reports.

Monitoring Risk

Key Performance Indicators (KPIs) will be set, some of which may be linked to the Departmental Actions

The purpose of the KPIs is to provide our various committees with an ongoing indicator of whether a risk might materialise or has been realised.

8.2 Six primary elements of the CUC 'The Higher Education Code of Governance'

- **Accountability.** The BoG is collectively responsible and accountable for institutional activities, approving all final decisions on matters of fundamental concern within its remit.
- **Sustainability.** Working with Senior Management Team (SMT) the BoG sets the mission, strategic direction, overall aims, and values of the institution. In ensuring the sustainability of the institution

the BoG actively seeks and receives assurance that delivery of the strategic plan is in line with legislative and regulatory requirements, institutional values, policies and procedures, and that there are effective systems of control and risk management in place.

- Reputation. The BoG safeguards and promotes institutional reputation and autonomy by operating in accordance with the values that underpin this Code, its various elements, and the principles of public life.
- Equality, inclusivity, and diversity. The BoG promotes a positive culture that supports ethical behaviour, equality, inclusivity, and diversity across the institution, including in the BoG's own operation and composition. This includes ensuring under-representation and differences in outcomes are challenged and, where practicable, corrective action is taken to ensure fair outcomes for all.
- Effectiveness. The BoG ensures that governance structures and processes are robust, effective, and agile by scrutinising and evaluating governance performance against this Code (and other Codes where an institution's constitutional form requires it), and recognised standards of good practice.
- Engagement. Governing bodies understand the various stakeholders of the institution (globally, nationally, and locally) and are assured that appropriate and meaningful engagement takes place to allow stakeholder views to be considered and reflected in relevant decision-making processes.
